Children under twelve years of age at the time of embarkation, two dollars less than the above; and infants under twelve months fifteen dollars less than the above named prices, to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale: Doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and luggage from the ship at Boston, to the destination agreed upon.

In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

Two oz. of Tea; 8 oz. of Sugar; 1 lbs. of Oatmeal; 2½ lbs. navy bread; 1 lb. wheat flour; 2 lbs. rice.

Children under twelve years of age (not including infants,) are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowance of Tea and Sugar.

We have as our Liverpool House Informs us per steamer of the names of *pre-paid* passengers embarked, we publish their names in the *Boston Pilot*, and also notify each purchaser of *pre-paid certificates*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary information regarding their route onward.

Bedding and utensils for eating and drinking, must be provided by passengers; or if purchased of the Canadian or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of immigrants, that as owners of the only LIVERPOOL and BOSTON LINE OF PACKETS, they have determined that their Immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate servants. In calling public attention to the subjoined list of the Packet Ships of the Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The thousands of letters which have been received from Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by these Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

AGENTS:

Enoch Train & Co., Nos. 37 and 38 Lewis Wharf, Boston, Massachusetts.
Train & Co., Merchants, No. 5 India Buildings, Water St., Liverpool, Eng.
Train & Co., Passage Office, Nos. 115 & 116, Waterloo Road, Liverpool, Eng.
Train & Co., No. 21, St. Patrick Street, Cork, Ireland.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements which tend to health and comfort, as a superior system of lighting and ventilating, the very best provisions, and a careful medical superintendence. Their Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each ship, and no expense is spared to render this the best and most genial conveyance to America. As Train & Co. have made such arrangements in Liverpool as will PROTECT their friends from the frauds and impositions sometimes practised there, they believe that those who prefer to pay passage money but few dollars more, will find it to their advantage to engage with a Respectable House, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the delay, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with trustless Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most ample fulfilment of all their engagements, we are permitted to refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, Jan. 11, '53.

The Democratic Senators held a caucus in the Comptrollers room this morning, and settled the "claims" of the various candidates for the offices in their gift, by nomination. The strings drawn by Williams, late Chief Clerk, and McKee, late Assistant Clerk of the Assembly, were drawn to such tension as to cause them to part, and Samuel G. Bugh, Ex-Senator, and now editor of the Shullsburg Pick and Gad, was nominated for Chief Clerk, and J. M. Sherwood, of Manitowoc, for Sergeant-at-Arms.

The Senate met at 12 M., had a very neat speech from Lt. Governor Lewis, and proceeded to elect the above named Chief Clerk and Sergeant-at-Arms. Mr. Sherwood accompanied our party in the sleigh for most of the distance from Stoughton yesterday, having left us for a short time very suddenly, as the vehicle came near overturning. *He insists that he jumped out;* but I did not then hand upon his feet as well as he did to-day. I have not yet learned whether he will beg the more than half a dozen assistants.

Judge Lewis' speech is spoken of as altogether the best one of the kind ever delivered here.

At 12 M. to-day, the Assembly was called to order by Thos. McHugh, Chief Clerk of the last Assembly. The names of members were called over, and all but four—Messrs. Gibson, of Chippewa, dec., Head, of Dane, Wheeler, of Richland, and Whiting of Walworth—answered to their names.

On motion of Mr. Hale of Kenosha, Mr. Wm. Hull of Grant, was appointed Speaker *pro tem.*—Mr. Orton, of Dane, nominated T. McHugh for Chief Clerk *pro tem.*, and Mr. Lees of Waukesha, nominated W. H. Gleason for Sergeant-at-Arms. These officers entered upon their duties at once.

Judge Enos, of the County Court of Dane Co., was called in, and administered the oath to the members, all but one standing in their places.—This member, (John Smith, of Racine,) made affirmation. The names were again called over, and the members approached the desk and "signed the Constitution." At the close of this ceremony, Mr. Lees moved an adjournment till to-morrow at 10 A. M., and it was so decided, by a large vote.

I should not like to hazard what little reputation for sagacity I may have, by predicting the result of the election for Speaker or Clerk. Fred. Horn and David Noggle of Rock, are the prominent candidates on the democratic side, and as that party has *nominally* 17 majority over all others, either of them, getting the nomination in caucus, would be pretty sure of an election. But there are several "independent" democrats, who are likely to do pretty much as they please, caucus or no caucus. There seems some probability of concentrating the opposition upon H. S. Orton, in which case he would draw some votes from the democratic side. The Maine Law men, or, at all events, those in favor of *some* prohibitory law, are strong, and may take it into their heads to elect a Speaker of their own irrespective of party.—Horn's chances are at present (3 P. M.) unquestionably the best. The "Administration," the "Monk's Hall," and the Anti-Maine Law influences are at work in his favor. This is a pretty strong combination: yet I have seen stronger ones fail.

For Clerk in the Assembly, H. W. Gunnison, of Milwaukee, is a candidate against Mr. McHugh, the present officer *pro tem.* The latter, as the Clerk of the last Assembly, and a good one, has many chances in his favor.

I enclose a complete list of the members of the Senate and House, their counties, and their politics. I believe it to be correct.

I also send you a table, containing the official statement of the condition of the Banks of this State, as prepared by, and for which I am indebted to Mr. Dennis, the Comptroller, and his accommodating assistant, Mr. Menges.

Madison has improved considerably since the summer. When I get a little leisure, I will tell you more about it. W. H. W.

MADISON, January 12th.

Several items are worthy of notice in the proceedings of to-day.

The regulations of the Democratic caucus were carried out this morning, as will be seen by the record. Mr. Horn received 47 votes, according to my count, Mr. Bascroft being absent, or not voting. Whether or not the refusal of the caucus to nominate or recommend his man for Sergeant-at-Arms was the cause of his absence, this deponent saith not, not knowing.

The re-election of Mr McHugh as Clerk, and the choice of Mr. Gleason for Sergeant, he having acted as Assistant last winter, will facilitate business. Indefatigable Dick Wilson, the Sergeant of last winter, is here, and I hope will be Assistant this time.

In the election of Speaker, it was noticeable that Mr. Enos, of Jefferson, who was reckoned as a whig, but who acted with the democratic caucus, voted for Mr. Orton—that Mr. Desmoyers, of Green Bay, whig, voted for Mr. Horn, and that Mr. Orton also voted for Mr. Horn.

The Speaker took hold of the work with a will. He will now, as he did when in the chair formerly, take the responsibility pretty often. Already this morning he has so construed the rules, as to allow the consideration of resolutions on the same day on which they are offered, by a *majority* vote, instead of *two thirds*, as was the practice last winter; and I am not sure but that he is right. It was remarked of him long ago that he was famous for hasty decisions, but that successful appeals from those decisions were rare. We can judge better of the prospect for the session, and of his disposition for fairness, when we see his committees. I have no desire to prejudge him in this respect.

The Governor's Message has doubtless been read and commented on at home before this reaches you. I think his remarks upon the conflict of laws, excessive legislation, and biennial sessions, will commend themselves to the approval of the people generally; and I hope they will commend themselves to the Legislature. So with many other suggestions, among which I am glad to notice those relative to the situation of the law relative to bail for capital offences, and the proportionate penalties for high crimes. (Mr. Hull of Grant, has already given notice of a bill, intended to correct the matter of bail.)

The Governor's views on the subject of land grants will not, probably, meet with the concurrence of the Legislature; nor, I hope, will his implied opposition to a General Railroad Law.—For his plain language on the subject of River and Harbor appropriations, he deserves the thanks of all, without distinction of party. On that question he occupies good old whig ground.

The subject of the appointment of chaplains occupied its usual space in the usual way this morning, but without being brought to a conclusion. Mr. Lees, of Waukesha, felt the constitutional oath lie so heavy upon his conscience as to prompt him to strenuous opposition. His motion to reduce the price from $150 to $50 for the session was very fairly met by a question from Mr. Hale, whether the smaller sum would not violate the constitution as well as the larger. The question is not settled yet, but will come up again for a further waste of time to-morrow. The newspaper question has to undergo its ordeal to-morrow. There is a resolution in, authorizing 25 weeklies for each member.

In Senate, the usual resolutions and orders were passed, preliminary to getting fairly at work. A brisk debate took place upon the subject of newspapers, but the number of 10 daily papers for each member was finally settled upon. The opening of the session with prayer by the resident clergyman was authorized.

Now that the officers are elected, and most, if not all, of the subordinates appointed, there will doubtless be a thinning out of the third house, although we shall have still remaining a large number of people who have axes to grind.

Continuation of Proceedings in Assembly, &c,

Madison, January 12th.

The papers in the cases of the contested seats of the Outagamie and Ozaukee (northern) districts were referred to select committees.

A Message was received, announcing that the Senate was organized and ready for business.

Mr. Webster offered a resolution inviting the resident clergyman to open the sessions with prayer, appropriating $150 for the purpose. Mr. Lees moved to make the sum $50. Mr. Noggle moved to make the sum $1,00 per day. Mr. Lees moved to lay the whole matter on the table.—Lost, 22 ayes, noes not counted. Mr Hale's amendment was lost.

The subject was laid on the table to allow the committees of the two Houses to wait upon the Governor &c.

Mr. Hull gave notice of *a bill providing for taking* bail in criminal cases.

The Committee brought word that the Governor would transmit his Message to the two Houses in Joint Convention at 12 M. The Assembly took a recess of half an hour.

At 12 M. the Assembly met. Presently the Senate appeared, preceded by the Lt Governor, and took their seats in the area. The State Officers were also present.

Lt. Gov. Lewis took the chair, and the Message, delivered by G. F. Delaplaine, Private Secretary of the Governor, was read by the Assistant Clerk of the Senate, J. M. Coe. The document will have been read and commented on at home before this reaches you. I think the Governor's remarks upon the conflict of laws excessive legislation, and biennial sessions, will commend themselves to the approval of the people generally.

The reading concluded, the Senators retired to their Chamber, and the House adjourned to 10 A. M. to-morrow.

The Governor's Message.

Governor BARSTOW has commenced his Administration auspiciously. He has given us an indisputably good Message; moderate in length, respectable in style, distinct in its utterances and, in the main, unexceptionable in its recommendations. It presents a brief and satisfactory exhibit of the condition of the treasury, and the state of the several funds; points out the subjects more immediately claiming the attention of the Legislature and wisely admonishes our present set of law makers to profit by the experience and the errors of their predecessors. We agree entirely with the Governor in what he says about Biennial Sessions; in his recommendation of a separate Bureau to take charge of the School Lands and School Fund and the business thereto pertaining; in his favorable allusion to the charities which solicit aid from the Treasury, and in his hearty endorsement of the various Railway enterprizes which are destined to accomplish so much for our State. We thank him for the manly and explicit avowal of his opinions in reference to Appropriations for River and Harbor Improvements and all the more that the President of his party has given the same important interest the cold shoulder in *his* recent Message to Congress. We differ with him, however, *toto coelo*, in the policy which he recommends as to the disposition of the Public Lands. We think the worst possible use to which they can be put, is to give them away, in large quantities, to Rail-Road Companies. We think the system unjust, unequal and altogether mischievous, and hope, almost against hope however, that Congress will set its face sternly against any further squandering of the Public Domain upon reckless and greedy speculators and monopolists. Nor can we conceive how those who contend that Congress has no right to appropriate money, for such purposes, from the Public Treasury, can uphold or defend the granting of Public Lands, to be converted into money, for precisely the same objects.

This is the main objection we have to urge to the Message. In almost every other particulars it meets our unqualified approbation. Let us hope that it will find like favor in the eyes of the Legislature, and that its hints about excessive legislation, short sessions and economical expenditures will fall upon attentive ears and lead to good results.

THE RECENT FIRES IN NEW YORK.—The N. Y. Times gives the following summary of losses by the late fire in that city:

Lafarge Hotel	$350,000
Metropolitan Hall	250,000
Furniture	157,000
Loss in business	200,000
Total	$957,000

The whole amount of insurance is stated by the same authority to have been $355,000. The *Times* adds, that the total losses by fire in New York City since Oct 28 last, amount to $4,840,000, and the insurance on the same to $1,730,000. The *Times* calles for a law requiring greater care in the construction of buildings, to guard against the ravages of fire. It is intimated in some of the New York papers that Metropolitan Hall was fired by an incendiary, and that threats had been made to that effect if GAVAZZI was allowed to lecture there again. His "farewell address" to the American public was the last performance in the Hall.

Opening of the Great Western R. R.

The formal opening of the Great Western Rail Road, connecting the Detroit and Niagara rivers is to take place on Tuesday next, 17th instant, on which occasion the City of Detroit gives a grand banquet. A number of our citizens, members of the press and others, have been invited to participate in the festivities, and several of them will attend. By leaving here this morning, or this afternoon, *via* the M. & M. Rail Road to Janesville, those intending to be present will be in ample time. As the senior Editor of the *Sentinel* proposes to attend the festival at Detroit and the Junior is at Madison, the charge of the paper for the next few days will be confided to a friend who has kindly consented to "take the responsibility."

PRESBYTERIAN CHURCH AT NEWARK.—A Correspondent of the Ozaukee *Times* states that the new Presbyterian Church in the village of Newark, was dedicated on the 8th instant by the Rev. Mr. SPENCER, of Milwaukee. It is the first Presbyterian Church built in the county.

Erie vs. the United States!

It will be seen by our Telegraphic despatches that the insensate authorities of Erie proceeded yesterday to the extremity of *arresting and imprisoning the U. S. Marshals*, under whose protection the R. R. Company had commenced relaying their track. The Marshals declined giving bail, undoubtedly expecting that the Federal Government would promptly and signally right this last audacious wrong. We trust that these Erie outlaws will be put down at once and, if need be by *the strong hand*. They have already caused more damage and occasioned more reproach to our country and institutions, than the value of twenty Eries could repair or atone for.

BUSINESS ON THE M. & M. RAILROAD.—The high prices paid for produce in our market and the extension of the Milwaukee and Mississippi Railroad to Stoughton, make lively times on the road. We understand that the warehouses all along the line are filling up with grain and pork: and we know that the cars and engines of the Company are all employed in bringing in the accumulating produce. The receipts for freight alone Thursday were nearly $1,000, and the train from the West that night, brought in 1060 hogs, almost all of superior quality.

THE MESSAGE DESPATCH.—We received the Governor's Message by mail from Madison at 8 o'clock Thursday evening. By 20 minutes past 4 o'clock, the following morning, the Message was set up and our entire Daily, Tri-Weekly and Weekly edition (now reaching the respectable aggregate of *thirty six hundred* copies) printed, folded, directed and mailed. The Message was sent to our Weekly subscribers as an *extra*, in order that they might receive it in good season.

MILWAUKEE AND WATERTOWN RAIL ROAD.—The newly elected Board of Directors of the Milwaukee and Watertown Rail Road Company met yesterday and organized by the choice of the following officers:

President—J. S. ROCKWELL.
Secretary—J. L. HATHAWAY.
Treasurer—JOSHUA HATHAWAY.

These are the officers of the old Board. This road will be opened to Watertown by next harvest and will contribute largely to the business of our city.

MORE LARGE HOGS.—JEFFERSON CHAFFY, a farmer residing on the north side of Fox Lake, Dodge Co., sold to MINER FOSTER Esq, of that village, ten hogs, the total weight of the ten being 4257 lbs; the average weight of five of them was 518½ lbs, all of them under 18 months old. One of these was a last March pig and weighed 306 lbs. Mr. FOSTER purchased the same day sixteen hogs the total weight of which was 6405 lbs. BROWER & Co., of that village, on Monday last, killed a hog (age not remembered) fatted at their mills whose weight was 617 lbs.

ERIE DESOLATE.—A correspondent of the N. Y *Times*, writing from Erie, describes its business as "deported;" its Hotels empty; its banks troubled with a rapidly returning circulation and in convenient demands for specie; and property as greatly depreciated in value. The same writer says and says truly, that Philadelphia and Pennsylvania generally will suffer equally with Erie if they aid and abet her riotous and lawless citizens. The entire West will establish an Embargo and Non-intercourse act with Philadelphia, should that city persist in backing up Erie.

☞ We spoke yesterday of Dr. BOOH, the Clerk of the Senate, as editor of the Potosi *Republican*. We should have said of the Shullsburg *Pick and Gad*. If he serves the Senate, as well as he does his readers, there will be no occasion to regret the choice.

A LARGE HOG.—Edwin Johnson, of Johnstown, Rock County, sold at Milton, yesterday, a hog, three years old, which weighed 500 lbs net, when dressed. He got $4,00 per hundred for the substantial porker.

"THE CITIZEN."—The new Weekly paper by this name, started in New York by JOHN MITCHELL, made its first appearance on Saturday last. The *Tribune* commends it highly. It commences with an issue of 45,000 copies (all ordered) a very respectable beginning.

☞ John Loseth, of Clyman, Dodge Co., has been appointed Deputy-Warden of the State Prison, and Dr. Luke, of Waupun, Physician.

Extraordinary News from Australia.

The following extraordinary intelligence is contained in a letter received by Joseph Abraham, Esq. of Bristol, from a relative in Hobart Town and handed to us by the latter gentleman. For really startling intelligence it beats everything that has yet reached us from that golden land.—Mr. Abraham, from the personal knowledge which he has of his relatives, knows he would not impose upon others and does not believe he is likely to be imposed upon himself.—*London Daily News.*

HOBART TOWN, Sept. 8, 1853.

"Knowing how deeply interesting any news respecting Australia must be to you, I write to inform you of a great discovery that has again been made on the Geelong side, about 65 miles from the town. They have been digging very deep, and have come on a table of gold about 100 feet from the surface apparently inexhaustible. All I can tell you respecting it is that the people's minds are partly turned, from the immense discovery. Every tub full of earth they raise from these holes contains pounds weight of gold. The more they dig the more inexhaustible it appears. At Geelong a tumult has broken out among the diggers. The government has sent up all the military to quell the disturbances, and the Marines of her Majesty's ship Electra are mounting guard at the Treasury, and the sailors of the above steamer of war mount sentry at the banks. The military from Van Deiman's Land are about to be despatched to Melbourne to aid the military already there. Goodness only knows how all this will end.—(Hobart Town Sept 5.) By the steamer from Geelong this day, I find that a gold quarry has been discovered near Geelong, 100 to 130 feet from the surface of the earth, putting all other diggings in the shade. 18,000 *oz.* have been taken out in three days by a few persons, and one person got a lump weighing 190 lb. in one solid piece. This is no exaggeration, and the greatest excitement prevails.—*Bristol Journal.*

GREAT CORN CROP.—The Agricultural Society of Champagne County, Ohio, certify that Hugh Mc Donald received the premium for the best acre of corn, an average one out of a field of 45 acres, which yielded one hundred and forty-five bushels and three pecks, by actual measurement of one row, carefully selected by the Committee as an average one, and estimated from that for an acre. It is estimated that the whole field would have averaged 140 bushels per acre.

Correspondence of the Daily Sentinel.

MEN AND THINGS IN GOTHAM—NO. 5.

NEW YORK, Jan. 5, '54.

Messrs. Editors:

The holidays have had full sway over the minds, as well as the bodies, of people in these parts for the past ten days, and may be said to have had an unusual amount of attention and justice shown and done them, no very absorbing event having turned up to distract our thoughts and turn them into other channels of pleasure or excitement. To say the city has been gay of late, is to use too tame a word; it has been wild; talk of the carnival at Rome and wild horses dashing along the corso,—a mere nothing to Broadway with its Babel of sights and sounds. Last Wednesday the rain ceased and the air became suddenly filled with gigantic snow flakes; a fast falling and thick coming cloud of purity quickly hiding square miles of filth, making the black one white. Tuesday, Friday and Saturday, the frozen shower descended, and when the new year came in, more snow was visible than had gladdened the eyes of sleigh riding devotees in many a long year. The storm at the north was still more severe, averaging more than 3 feet in depth, and delaying for some days all communication in every direction. Here all sorts of cutters were out, from the humblest to the most gaudy, jingling with fancy bells and decorated in the most telling manner. The 8 and 10 horse teams seemed to contain small villages—the living mass seeming to look in to the 2d stories of houses, as they flew along and clinging to the sides like bees, and yelling like bachanalians, presented as gay and lively a sight as the eye could rest on. Now one sleigh would tear along with a facetious party on board, blowing huge tin horns—showers of snow balls would be interchanged—ladies would shriek and testy gents mutter curses loud and deep—bystanders would laugh and quickly fill all vacancies made, just for the fun of the thing, and from the Bowling Green to Union Park, Broadway was one mighty roar of shouting voices, and the trial ground of fast horses and faster men. An elegant turn out of 12 shetland ponies was exceedingly novel and pretty, and attracted even special attention from the busy throng. On Monday the carnival was at its height and the male world was abroad on the duties social of the day, which passed off with less of rowdyism than was to have been expected. Yesterday a sun of spring like character made fearful havoc of the snow, and broken teams and stalled horses told that the sport was drawing to a close and in a day or two a sea of mud will cause all to regret the loss of it.

The old common council probably saw the old year out in endeavoring to pass that abomination, the Broadway rail-road, but happily, and to the joy of all, the deed was not consummated, but two other projects were which find much if not general dissatisfaction, —one the opening of Albany St, which will cut up Trinity church yard and destroy the monument recently erected to the memory of the old prison-house patriots of the Revolution, besides molesting the remains of the honored dead who have slumbered undisturbed for years. The other ordinance is to make a thoroughfare thro' that time honored spot and place of beauty, the Columbia College grounds. These acts have been done by a reckless corporation and at the instigation of a few wealthy land holders anxious to double the million they already possess.

The heavy weather along the coast has been fearfully disastrous to those who go down to the sea in ships; whole fleets of vessels have been driven ashore, and the loss of the "Staffordshire," with 180 lives, is a terrible crowning of the list. It is said now that McKay will not repeat his last experiment in ship building, as the difficulty he will find in getting insurance on such a ship will be very great. Underwriters were very shy of the "*Great Republic*" and it was found no easy matter to obtain sufficient Insurance on her.

The Soule's, Father and son, have been having a little pistol practice abroad with their Spanish friends, but unfortunately the leaden messenger did no damage to either party. So much for sending fire-eaters abroad to fill high and dignified positions. Such actions merit a severe reproof, if not a recall; but the all potent chivalry of the South will undoubtedly sustain them, and perhaps applaud the deed.

Jullien has gone to Boston and returns on the 18th to give his grand Bal Pare, a full dress affair, that is expected to shake upper-tendom to its very center. No musical novelties are on the carpet, and very little regret is exibited that such a barren state of things exists in our midst. To those who think music a refining influence and to be sustained if for no other reason, it seems a lamentable fact that a million of people cannot more than half fill nightly Jullien's Concert Hall to enjoy his incomparable entertainments, yet it is true, and in view of the fact, I really must place even far western Milwaukee where she deserves to be—the 2d musical city in the Union—facts and figures I think would sustain the decision.

The Crystal Palace gave its last evening exhibition yesterday—unprofitable probably the cause—the stock is lower than ever; I think down to 90; people wont go out of town here to see sights, or put themselves much out of their way for any thing human—more selfish hearts and ribs—more tickle proof—it would be hard to find than exist here. Money, money making and spending it irrationally, is the burthen of the great human song.

In the literary world, not much stirring; your old associate F—— notice, has a well written article in this month's Putnam, detailing an exciting episode in his own land trip to the gold regions. Harper's not yet out, which is no great loss to the reading community after all. Your readers will find some good stuff in the life of Haydon, the painter, recently published. Dickens, it is said, realized £15,000 from advertisements in which his "Bleak House" was enshrined. A book has been published in England, in which the writer undertakes to prove that the "forbidden fruit" was the tobacco plant—just think of Adam in the cool of the day drawing on a "mild Paradise"—rather a hard theory to smoke this, yet if true, how conclusively it helps to prove that his sin is ours, and ever will be. That excellent and scholarly periodical, "the Literary World," came to an end with the dying year, after an existence of seven years. 'Twas rather a modest publication—too much so for the times—but one in which much taste and judgment was displayed, and those who have relished its pages will regret its sudden demise—the more so, that it undoubtedly died for want of nourishment. Thus good things pass away and the meretricions raise their brazen fronts, waxing fat with success, tho' they are but unsightly weeds after all. The North American Review changes its editor and publishers with the New Year—the Rev. Andrew P. Peabody in the former capacity, succeeding Prof. Bowen, of Hungarian notoriety. The great Astor Library will open to the public on the 9th inst. Every one may enjoy its privileges without cost, ticket or ceremony, simply on condition of correct demeanor. What a delicious era is to dawn on the book reading community of limited means! James' first American Historical romance is announced abroad, called "Ticonderaga, or the Black Eagle," and probably Indian ponies. Bulwer it is said has mortgaged his brains for some years to come to the tune of $2000 per annum. Such operations are generally followed by trash for the benefit of the public.

Deeds of blood turn up the wide world over More fighting in Turkey, and viewing the history of the world, particularly that portion which comes to us thro' the good book, and the dealing of God unto nations, it seems to me that the Crescent must pale even before the Russian cross. 'Tis a sadly perverted Christianity, it is true, and the character of its followers worse than those who have the bulk of our sympathies; yet the present, teaching by the past, leaves small hopes in my mind for the ultimate success of the Ottoman.

Another row in Cincinnati, in which it is my impression, as has since been confirmed, the Germans were most outrageously treated and misunderstood—quelling public disturbances is a capital thing, but officials may sometimes make sad mistakes from a blundering sense of duty. Erie's offence is rank and smells to heaven—let the gods revenge the insults offered to men in that quarter.

Greely must have felt flattered by the bumper you gave him,—of course, it was not all curiosity

Common Council Proceedings.

The Common Council held a regular session at their rooms Thursday evening. The only business of importance transacted was the adoption of a memorial to Congress, urging an appropriation for the erection of suitable buildings in this city, to accomodate the U. S. Courts and Federal Officers; and the rejection of the proposed modifications of the Water Works contract. One of these nights the Council will repent of their ill-advised action in this matter.

The several School Houses of the City were directed to be insured for $4000 each, half in the Protection and half in the Etna Company, Hartford. Mr. PERRY, Wood Inspector, reported that he had appointed the following Deputies:—2d *Ward*, Egbert Mosely—3d *Ward*, Jno. H. Ryan—5th *Ward*, Daniel Waite. Adjourned.

POLICE COURT. Jan. 13th.

The case of the State vs John Larsen for assault & battery upon Hans Alliksen on the 10th Inst. The case was settled, defendant paying costs.

WINTRY.—Thursday night brought us another installment of snow, two or three inches, and improved by so much the sleighing. Yesterday the wind blew keenly from the west, filling the air with snow drifts, and giving everybody a realizing sense of winter. Towards night, it grew cold fast, with the prospect of getting more so by morning.

MILWAUKEE DRAMATIC ASSOCIATION.—These Amateurs will try their hands in public to-night at Young's Hall, in the play of "Ingomar", with appropriate scenery, dances and music. We bespeak for them a full house and fair hearing. See advertisement.

☞ We are requested to state that the Rev. Mr. WILSON will preach on "Reform and Reformers" at the Spring St. Congregational Church, to-morrow morning.

Railways in the United States.

In another column will be found the usual annual statement of the Railways in operation, in construction, the miles and cost, throughout the United States. This statement exemplifies somewhat the extraordinary growth of this country in means of inter-communication. The past year has been one of extraordinary activity, and the national energy is shown in nothing more strongly than in railway construction. We present the following comparative statement of these works on January 1st:

	1851.	1852.	1853.	1854.
Miles in operation	18,287	21,365	23,937	17,911
Miles in construct'n	15,992	11,225	10,419	12,999
Capital Invested.	$365,607,950	355,150,948	405,103,199	503,868,003

This statement of cost is gathered as far as possible from the report of the different companies, and from fairly based estimates. We have but little doubt that it is understated, however, in amount, especially regarding those works in progress of construction. We think that some ten or fifteen millions of dollars could be safely added, and still keep within the total sum now invested in railway property in the United States. Taking the miles finished, and dividing the gross cost as given above, it would make the roads cost a fraction over $28,000 per mile—an extremely moderate sum it must be allowed. The following will show the number of miles opened during the past three years:

	1851.	1852.	1853.
Miles opened	1,218	2,222	3,964

From this statement can be gathered the rate the country is now proceeding in railway construction. Whether the same rate of increase will go on during the coming three years we have no better means of judging than have our readers. Nothing but an extraordinary ease of the money market will allow of anything like the same amount of expenditure. There are some enterprises that will go rapidly on, the means having already been secured, or circumstances so favoring the works, that the means may be safely relied upon when called for. It is safe to estimate that some five thousand miles are so situated that with no greater stringency of money, they can be finished during the next two years.

The number of miles of railway now in operation upon the surface of the globe is 35,264, of which 16,180 miles are in the Eastern Hemisphere, and 19,084 miles are in the Western; and which are distributed as follows; In the United States 17,841 miles; in the British Provinces 823 miles; in the Island of Cuba 350 miles; in Panama 31 miles; in South America 60 miles; in Great Britain 6,976 miles; in Germany 5,340 miles; in France 2,480 miles; in Belgium 532 miles; in Russia 422 miles; in Sweden 75 miles; in Italy 170 miles; in Spain 60 miles; in Africa 25 miles; and in India 100 miles.

The longest railway in the world is the New York Central which with its branches, is 621 miles in length. *The number of miles of railway in the Unit d States, exceeds the rest of the world by the amount of 358 miles.*

The total number of railways completed in the United States is 264; the number of railways in course of construction is 134; the number of miles in operation is 17,811, which have been constructed at a cost of $508,583,038; the number of miles in course of construction is 12,898.

The State of Massachusetts has one mile of railway to each seven square miles of its geographical surface, Essex county in that State, with a geographical surface of 400 miles has 145 miles of railway facility, which is a rate of one mile railway to each three square miles of its geographical surface.—*Railway Times.*

WASHINGTON GOSSIP.

The Correspondent of the N. Y. *Courier* writes:

The Committee on River and Harbor Improvements met to day and resolved, ayes six, noes two, to report a bill providing for the continuance of all important works now in progress, and for the commencement of others of undoubted utility.

The Steamer San Francisco, it is believed, had on board money for the payment of all naval expenditures in the Pacific.

From the Tribune, Jan. 7.

Senator Douglas's Nebraska bill is considered Jesuitical. The softs who put a favorable construction on it were consulted in advance. It is said to be approved by John Van Buren, and is designed to secure the united vote of the party.—The Whigs, however, are not deceived this time.

The Southern Members are also of the Kosta resolutions.

The New York mail has failed to day.

From the Herald, Jan. 7.

It is said that a challenge has been sent by Col. Jefferson Davis, Secretary of War, to Mr. Toombs, United States Senator for Georgia, and been accepted. We cannot say what truth there may be in the rumor, but the probabilities are it is correct.

Mr. Bocock, chairman of the House Naval Committee, is actively engaged in preparing a bill for the re-organization of the navy. It is believed it will be committed in the course of a week or two.

Recent accounts from Georgia lead to the belief that Mr. Cobb's friends are not inclined to be as pliant as he has shown himself, and are determined to fight the secession faction to the last, thus extinguishing all chance of a senatorial election for some time to come.

Mayor Election in Boston—The Legislature.

Boston, Jan. 9, 1853,

The city election to-day resulted in the choice of Dr. Smith, the Native American whig candidate for Mayor. The vote was as follows—Smith, 6,810; Wilkins, regular whig, 3,169; Whiting, anti-Maine law, 1,718; Hobart, democrat, 237; scattering, 55. The three aldermen on the Smith ticket are also elected.

Eighteen ont of the nineteen vacancies in the State Senate were filled to-day by the whig candidates. One vacancy in Berkshire was not filled. The Senate now stands—23 whigs, 8 coalition and 1 democrat.

A Governor and Lieutenant Governor will be elected to-morrow by the Legislature.

NOTHING LATER FROM THE SEAT OF WAR.

Negotiations for Peace going on.

New York, Jan. 13.

The *Baltic* has just reached Liverpool till Thursday the 5th inst., only after her appointed time. The *Europa* sailed from Boston the 28th.

The news is very meagre. Christmas Holidays having prevented business.

Lord Palmerston had resigned his seat in the British Cabinet.

There is nothing really new as to the Turkish war. It was rumored, but not believed, that the Porte would consent to resume negotiations.

Vienna, Wednesday evening.—The Russian steamer *Fresh* had set two Turkish villages on fire by throwing red hot balls into them

Constantinople, Dec 19.

Negotiations for the peace project have commenced. The Porte manifest a pacific disposition—the combined fleets are still at Beicos.

Stockholm, Dec. 26th.

Sweden.—The King has invited a diet to nominate a small number of members, possessing his entire confidence, to whom, as a committee, he can make an important communication. It is believed that the Government is waiting to bring some momentous facts connected with Foreign affairs, before the Diet

Berlin, Dec. 24.

Negotiations are pending between Sweden and Denmark for the conclusion of a league offensive and defensive between the two States.

St Petersburg, Dec. 29.

The only signs of ameliorations of war noticeable in the state of trade, was a rise in the prices of imported articles.

LIVERPOOL MARKETS.

Richardson & Brod's Circular of the 27th says: We have no comments to make as to the state of trade since our report of Friday. Saturday was only a broken business day and yesterday the close of the holidays. The weather has been mild until the forenoon, when a sharp frost set in with a heavy fall of snow.

Our market this morning was fully attended, both by local dealers and millers. Enquiry for Wheat was general, and in most instances, the new sales of Friday were rather exceeded, but the amount of business transacted was not very heavy. Indian corn firm without change. Oats fair demand.

A dispatch dated Liverpool, Thursday says:—Breadstuffs in good demand and tendency upward.

Reschid Pasha had promised to Foreign Ministers to do his utmost for the furtherance of Peace at the Grand Divan to take place on the 20th. It was generally reported in the Principalities, that an Armistice during the winter months, would be agreed upon, but this will enable Russia to take the field with not short of 180,000 men.

The U. S. Frigate *Saranac*, with Mr. Spencer on board, arrived at Gibraltar on Dec. 16th.

A meeting is called at Southampton to petition for active measures against Russia.

Dunkirk, Jany. 12th.

The Steamer *America* in attempting to enter this port about 3 o'clock this P. M. after getting inside the bay, and about a quarter of a mile from the pier ran on to a sand bar where she now lays in a very dangerous situation—a strong wind is blowing from South West by West and ice coming in. She is very near the break water in danger of being driven on the piles.

LATER.

The *America* has been scuttled.

Large Business in Racine.—Yesterday witnessed the largest day's business in this city that has been transacted for a long period—Full one thousand hogs arrived, and were taken, mostly by two houses, at 3,50@4.75. The aggregate of grain received was also very large, and the rates high. Wheat sold at 1.08@1.09; oats, 28@29½; barley, 45@55c. It is believed that Racine never had a heavier day's business. The amount paid for produce during the day was not less than $10,000! Additional items will be given to-morrow.—*Racine Advocate Jany.* 12

Letter from Erie.—To-day the U. S. Marshall from Pa. passed through here on his way to Erie. He has warrants for Mayor King and Lawyer Lowry, the ring leaders of the rioters; also instructions to call a public meeting and to inform the citizens of Erie that he is empowered to superintend the laying down of the *narrow gauge* rail force enough at his command to *protect* the rail roads. Four hundred U. S. troops are in readiness at Pittsburgh to march at a moments warning to the scene of disturbance. What next?—*Cleveland Plaindealer, Jany.* 9.

It is supposed there are not a hundred young men in the United States who have not been a courting at least once in their lives.—*Exchange Item.*

What assure of things this reveals! Yet we go on making Fourth-of-July orations, and calling ourselves an enlightened and virtuous people—just as though nearly every man had not sneaked away after drink without his telling his parents where he was going! Oh, how long—yes, we say it emphatically, how long must these things continue?—*Portland Advertiser.*

We are able to announce from very high authority that *Invasion* was inaugurated chamber-maid of the Capitol House on the very same day the other State officers were sworn in.—*Janesville Standard.*

We did expect the message, but we did'nt get it, and we did'nt get any reason why we did'nt.—*Ed.*

☞ Yesterday, a man by the name of Thomas Bowers—apparently in somewhat of a hurry—arrived at the Columbus depot, just a moment too late for a Cleveland train. Looking in the Direction the cars had taken, with an air of disappointment, a friend inquired what he was doing. The reply was—"I have just discovered that I am the *left* Bower."—*Columbus Dem.* 6.

Illness Hon.—Mr. Thomas Denby, an English farmer residing four miles East of Jacksonville, recently sold 73 hogs in Meredosia, the average weight of which was 413 pounds, and fraction,—the total being 30,105. The hogs were only 18 months old, and for the lot Mr. D. received $1,264 04.—*Ch cago Democrat.*

Fine Pork.—Yesterday, eighteen hogs raised by Galbraith & Zall of Johnstown, Rock co., and weighing in the aggregate 7456 lbs., were sold in a lot to Mr. McSweeney at $4,53 per hhd.; making a total value of $337,65.—*Wisconsin Friday.*

PROSPECTUS OF

Thos. H. Benton's Great Work.

THIRTY YEARS' VIEW, of the workings of the American Government. Published by D. Appleton & Co., New York, and sold exclusively by subscription.

During the last thirty years there has been no important public measure in which this active and distinguished statesman has not taken a able and active part, and been familiar with the influences, whether secret or public, which have urged forward or opposed each. He is therefore well qualified to write on the history of this period.

This work will be completed in two volumes, the first of which will be published early in the year 1854, and will be brought down to the close of the administration of Gen. Jackson, and will thus form a complete work by itself, containing about 700 double octavo, royal 8 vo. pages, and a superbly engraved portrait of Senator Benton.

NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont) at my premises, where I am prepared for those wishing the use of him the first season, to enter their names. Season to commence the second day of April, and end the 4th day of July. Limited for the season at fifty-two mares, two of them my own. It is claimed by those owning the Black Hawk Stock that stands so high in Vermont, that the *original* Black Hawk was sired by the Old Sherman Morgan. If so, the same cross blood can be raised in this State, and at a far less expense than to import them from Vermont; that was one reason for bringing Comet Morgan West. His pedigree is fully authenticated.

Proof Positive—Skeptics Read—Testimony! Testimony!!

HAMPDEN, Feb. 24, 1846.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I find to suit, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing so well calculated to operate so favorably in all diseases of the lungs as that is. I have known a hard, distressing cough, treated in very stubborn cases, to yield to the Balsam in twenty-four hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have a seated consumption, troubled with a hard distressing cough. He took three one bottle, and he had two more of your Agent, Mr. Whitmore. After using the 3 bottles he has become well, and now labors every day. He tells me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it in the cases above named, and worthy for your benefit, but for the benefit of suffering humanity.
